

THE FILM GALLERY PRESENTS

# MONDAY IN B FLAT

FILMS, DRAWINGS AND PHOTOGRAPHS BY MOIRA TIERNEY

June 22 - July 23, 2022

*Moira Tierney's work is dedicated to a descriptive, experimental and poetic form of cinema.*

*Each of her films creates a prototype which connects the disciplines of art and poetry.*

*Like the small segment of yellow wall of which Marcel Proust was so fond, her film  
DOWN CLAIBORNE demonstrates, in concrete form and within a clearly defined visual space ...  
how film can contribute to the preservation, continuation and transmission of a broad polychromatic  
spectrum of working class and revolutionary memories.*

- Nicole Brenez (La Fémis, Cinémathèque Française, Université Sorbonne Nouvelle Paris III)
